OLD BUSINESS:

1. **Budget Workshop**

Council reviewed the proposed Capital Improvement Program (CIP), focusing primarily on technology upgrades, including server replacement and future financial software modernization. Members also discussed a potential traffic management study and agreed that pursuing grant funding should be explored before including the project in the budget, noting that it could be added at a later date if necessary.

Council further reviewed several Town Hall improvement projects, including roof repairs versus replacement, restoration of the historic wood flooring, basement moisture concerns, parking lot maintenance, and the possibility of deep cleaning existing carpet rather than replacing it. Additionally, proposed improvements to the Public Works facility were discussed, with particular attention given to HVAC and electrical upgrades.

Council also reviewed budget and public hearing timelines and emphasized the need for additional quotes, cost estimates, and project information before making final funding decisions.

No action was taken at this time.

ADJOURNMENT
